

Becci Murray

Chair of the Board of Trustees, Glendale Gateway Trust

My husband and I moved to Wooler over 30 years ago and we raised our 2 children here. We lived across the border for a short time but always knew we would return to Wooler, a place and community we view as home. I have worked in the charitable sector for 20 years, predominantly covering the geographical area from Amble up to Berwick-upon-Tweed. The focus for the work I have been involved in has been improving the opportunities for residents of the rural and town communities. My projects have mainly supported employment, tackling poverty, adult training and education, addictions and peer support. I have a strong background in partnership working and bringing networks together and I am currently employed as the Operations Director at Berwick Community Trust. I am delighted to be part of the Glendale Gateway Trust as a Trustee, currently as Chair of the Board.
