

I am the newest member of the GGT team, having joined in December 2025.

I was born in Corbridge in Northumberland and have always felt proud to be a Northumbrian.

I have travelled, and lived in many places with my previous work, including large cities such as Newcastle, Glasgow and Milan, but my heart has always belonged to the countryside.

My background is in Support and Counselling and facilitating and running community events for all ages.

I have worked with both young people, based within the Duchess High School in Alnwick, and with elderly people within two Northumberland based care homes.

I came to live in Wooler 5 years ago and I love the peace and tranquillity of rural living. I'm also aware of the potential difficulties this can create.

I'm so glad to be joining such a passionate, dedicated team and look forward to getting out and about and meeting lots of new people.
